

ATTACKED AMERICANS IN MEXICO

Open Assaults Made Publicly on Streets of Mexican City

AMBASSADOR PROTESTS

To U. S. Government—Demonstration Was Outcome of Recent Lynching of Mexican.

Mexico City, Nov. 10.—Through insults to the American flag and assaults made openly upon American citizens in the streets, the anti-American demonstration which began with the stoning of the Mexican herald office, developed into an affair of international importance.

A vigorous protest was registered by the American ambassador with the Mexican department of foreign relations and at the same time the facts were telegraphed to Washington and instructions asked for.

Last night the attacks were renewed. Windows in a dozen American business places were smashed. All over town shutters were hurriedly drawn and establishments closed. Forces of police appeared in the streets and kept the crowd moving.

An attack was made upon the plant of El Imparcial and the mailing and distributing departments wrecked. For 20 minutes the mob battered at the heavy doors leading to the editorial and composing rooms above with heavy timbers and fired the wreckage. Then the mounted police charged with drawn swords. One of the attackers was run through and killed. The others fled. An alarm, turned in from the office of the paper, brought the fire department to the scene before the first gained headway.

While the police looked on and seemingly made no effort to prevent it, an American flag floating in front of a candy store in the business district was torn down yesterday afternoon by a crowd of several hundred Mexican students and others, trampled and spat upon and torn to bits. Later photographs of the crowds were taken before the offices of the Dierce del Hogar, a Mexican newspaper, with many individuals waving bits of the tattered banner.

Late last night companies of mounted police were stationed in every block and hundreds of gendarmes were patrolling the streets.

An American, whose name could not be learned, was reported to have been captured by the rioters, to have had his clothes torn from him and a beating administered.

The demonstration was a continuation of the affair caused by intemperance aroused among the people by the burning at the stake of Antonio Rodriguez at Rock Springs, Texas, on the night of Nov. 3.

Publication of the violent attacks on Americans by several Mexican papers tended further to incense the medical students, who were the promoters of the demonstration.

El Dierce del Hogar was particularly violent in the expressions of animosity toward the people of the United States, characterizing them as "giants of the dollar; pygmies of culture and barbarous whites of the north," and asking where is the boasted Yankee civilization?

Shortly before noon the crowd assembled before the new Juarez monument in the Alameda and proceeded to the new municipal palace, where several of their number, who were arrested, were being examined by the authorities. A company of mounted police followed in the wake of the crowd. From the palace the students marched through Avenida San Francisco, the principal business thoroughfare of the city, stopping in front of the candy store, where the flag incident occurred.

Gathering numbers as it proceeded the crowd marched to the offices of the department of foreign relations, making demonstrations on the way against American business places and breaking windows in the St. Francis Hotel. Jack Davis, an automobile repair man, had a hand-to-hand encounter with a dozen members of the crowd when they attempted to tear the top from his automobile and enter his establishment. He knocked several of his assailants to the pavement and drove them from his place.

At the head of Juarez avenue, around the famous statue of the Iron horse, speeches were made denouncing all Americans, and a passing street car conveying children to the American school was stoned. One child was struck and severely injured. Windows of the car were shattered.

Among others who were assaulted were the son of Ambassador Wilson and William Marshall, an employee of

GENERAL STRIKE IS IN SIGHT

Hundreds of New York Teamsters are Joining in Express Drivers Strike

MASS MEETING TONIGHT

Question of General Strike Will be Determined—Police Anticipate Rioting.

New York, Nov. 10.—The union drivers of most of the big coal companies in the city joined the express drivers' strike today. Fifty men in the employ of one company left their wagons in the yard.

The International Brotherhood of Teamsters declared positively today that the question of a general strike would be determined at a mass meeting tonight. There seems no doubt that if the express companies continue their refusal to arbitrate the dispute, a general strike, involving 40,000 drivers, will be called.

State Labor Commissioner John Williams came to New York today from Albany. He declares that if the express companies do not yield he will invoke the state law, which gives him the right to examine the company's books and to subpoena and examine witnesses. He believes he will be able to force the companies to arbitrate.

The express companies have prepared an appeal to the federal courts for an injunction to prevent the police from impounding express wagons driven by unlicensed drivers. The police, acting on orders from Mayor Gaynor, have already seized three such wagons.

The companies allege that the ordinance requiring all drivers to be licensed has been inoperative for years. The express companies have made application for 300 drivers' licenses, but it will be many days before all these can be acted upon.

In anticipation of serious rioting following Police Commissioner Crosey's decision not to furnish express wagons with mounted police guards, 200 additional police were today assigned to strike duty.

QUEEN, EMPRESS AND CZARINA PLAN REMARKABLE CONFERENCE TO DISCUSS PROBLEMS OF EUROPE

London, Nov. 10.—It's up to the women of Europe to decide what's wrong with the present day governments, and if the plan suggested by Queen Mary of England is carried out a remarkable gathering of crowned heads will be held in Windsor castle during December. According to court gossip, Queen Mary has started the court followers by writing to the empress of Germany, the czarina of Russia and Victoria of Spain asking them if they would be willing to meet for an informal discussion of "What do the people want?" or "How can the women of Europe bring about better conditions?" It is agreed that this is hardly the wording of the notes written by England's queen, but that is her idea in plain words. The troubles of the Portuguese, the matters of Spain and the ever dark cloud over Russia, to say nothing of the unrest in Germany, give good reasons for some action. And England has not insurmountable, all of which has caused decided uneasiness on the part of the government leaders. However, she is quoted as declaring it would be a good idea to let the women discuss topics of the day, and maybe a practical solution could be found. The suffragists of London have jumped at the alleged remarks of the queen as indicating she favors the equal rights of women. This is denied by Queen Mary's friends, as she only wants the various wives of Europe's rulers to help their respective husbands toward a happy solution to present day conditions.

WHAT HARDING SAYS ABOUT COUNTY OPTION

Marion, Ohio, Nov. 10.—Warren G. Harding, defeated Republican candidate for governor of Ohio, sized up the situation in Ohio with the following striking editorial in his paper, the Marion Star, last night:

"The election returns suggest a current wave of opposition to the Republican party. Defeat is not peculiar to Ohio. The dissatisfaction is not confined to one state. Here in Ohio the dissatisfaction has been magnified by local conditions. 'The agricultural forces, basking in the enjoyment of the best compensation they have ever known, not only reflected the opposition to protected industries first shown in Iowa and Kansas but our Ohio farmers actually believe there is a conspiracy of corruption at the state capitol, and looked upon Governor Harmon as its special foe and the state's deliverer. A full understanding will come later, but it couldn't be reached in this campaign."

"Moreover, the farmers and the village folk actually believe that George B. Cox of Cincinnati, was trying to capture the state government. It did not matter to them that the Republican candidate was the only gubernatorial nominee in 20 years that was not Mr. Cox's choice and the declaration of the candidate to stand to hypothetical denunciation added to this fictitious apprehension. To these adverse influences was added the weakness of Republican division. Without trying to analyze emergency and measure rational Republican progress thousands of Republicans felt called upon to 'insure' and they did."

"A very important influence in the Ohio fight has not been generally recognized. The sets in Ohio have achieved a significant victory and the extreme 'drift' have helped them to it. The temperance forces, recognizing the Republican nominee because he proclaimed a wish to be fair, have aided their determined opponents, and the end of the county as the unit in local opinion was written at the polls Tuesday night."

"Forty varied angles led to a mixed situation in Ohio. The popular serenity of Governor Harmon, is not to be disputed. The strength or weakness of the Republican nominee this paper will not discuss. There has been such a sweeping Demo-

ALLEGED POISONING OF HUSBAND

Wife of Wheeling Millionaire Charged With Attempted Murder

CAUSES BIG SENSATION

As Parties are Prominent Socially—Pinkerton Detectives Work Up Evidence.

Wheeling, W. Va., Nov. 10.—Mr. John O. Schenk, who is alleged to have been poisoned by his wife, died here at 10:55 this morning.

Wheeling, W. Va., Nov. 10.—One of the most sensational affairs in this city in a number of years developed today when Mrs. Laura Farnsworth Schenk, wife of John O. Schenk, millionaire president of the F. Schenk & Sons company, was arrested on a charge of poisoning her husband and held without bond to await a hearing before a justice of the peace.

Mr. Schenk is at the North Wheeling hospital and is said to be in a dying condition. Arsenic is the poison with which the alleged attempt was made to murder and in the analysis of medicine and water given to him while ill, it revealed the fact that it contained arsenic in considerable quantities. As soon as suspicion was aroused Mr. Schenk was removed to the hospital where he lies at present.

The warrant for Mrs. Schenk's arrest was sworn out by Prosecuting Attorney Handian and she was taken in custody by Police Chief Hastings.

The affair has been developing for more than three weeks and it is said that a mass of evidence of very damaging nature has been secured by the state. Five Pinkerton detectives have been employed by relatives of Mr. Schenk and the greatest precautions taken to prevent another attempt since his removal to the hospital. During the past two or three days Mrs. Schenk is alleged to have urged that her husband be brought home from the hospital and action resulting in the warrant being issued was immediately taken.

Mrs. Schenk will be given a preliminary hearing later in the day.

DICK NAMES GOV. HARMON.

Akron, Nov. 10.—While still refusing to concede his defeat, Senator Dick says that if the legislature is Democratic Judson Harmon will succeed him as senator. He promises to issue a statement tomorrow. He says he does not mean to dispose of Harmon's chance for the presidency by naming him as senatorial timber, as these two aspirations need not conflict and his chances for both are very good.

POMERENE MENTIONED.

Canton, Nov. 10.—Atlee Pomerene, prominently mentioned to succeed Dick today refused to make any statement on that subject.

Why is it that temperance women so often wear corkcrack curls?

HUGAN CLAIMS HIS ELECTION

Columbus, Nov. 10.—Timothy Hagan arrived here this afternoon and claimed that he had received figures from every county in the state, which predict his election over Denman by about 10,000.

At Denman's office no one would make any statement, but Hagan's figures seem to be accepted as correct.

R. W. Dunlap, state food and dairy commissioner, ran next to Denman on the Republican ticket, but the Republicans have given him up.

Unofficial figures in up to this morning give Harmon a plurality of 98,000.

BOYS SHOT

While Playing About School House in Which Elders were Holding Entertainment.

Geneva, O., Nov. 10.—Edwin Rhoades and Philip Kraus, both 12, were shot and seriously wounded by an unknown person last night while playing outside of Harper's Field school house. Inside of which their elders were holding an entertainment.

One charge of buckshot struck both. The shot broke up the entertainment and there was talk of lynching who ever fired it. Children attending this school have long been subjected to threats according to reports here.

A constable left here today for the vicinity of the school house, expecting to make an arrest.

PRESENTED WITH CHAIN.

Frank E. Slabaugh, the newly-elected sheriff of Licking county, was Thursday morning presented with a handsome token of the esteem in which he is held by two employees of the American Bottle Company, being Earl Green and A. N. (Poley) Smith. Early Thursday morning Messrs. Green and Smith spent several hours in manufacturing a glass chain or rare beauty, which they made of white and amber glass. INSANE MAN KILLED TWO

Boston, Nov. 10.—A man named Fall ran amuck in the Suffolk district attorney's office today, killing Police Sergeant Schlehuber and another man whose name is unknown. After a general battle in which several others were hurt Fall was arrested.

There are always two sides to a story, and the gossip can generally improvise five or six more.

ROOSEVELT IS IN SECLUSION

Oyster Bay, Nov. 10.—The butler brought the following statement from the interior of the Roosevelt home here today: "Nothing to say."

It is understood that Roosevelt will remain in seclusion for a week and then resume his contributing editorial writing of the Outlook.

WILL REQUIRE OFFICIAL COUNT

Fargo N. D., Nov. 10.—It will take the official count to determine who is the next governor of this state. The Republicans claim Johnson won by 400 and the Democrats say Burke was re-elected by 200.

PENNSYLVANIA REPUBLICAN.

Pittsburgh, Nov. 10.—Pennsylvania stands as the most Republican state in the country today. The Democrats gained four congressional representatives, but all the rest of the state ticket is Republican. Twenty-three Republicans go to congress. Senator George T. Oliver will be returned and practically complete returns show Tener's plurality for governor to be close to 35,000, which is a loss of 150,000.

The louder the pious puffing the less the heavenward hauling.

Many a man succeeds because he's a good guesser.

WON'T CONCEDE LEGISLATURE

Akron, O., Nov. 10.—Senator Dick still refuses to concede a Democratic legislature until he hears from the legislative candidates personally.

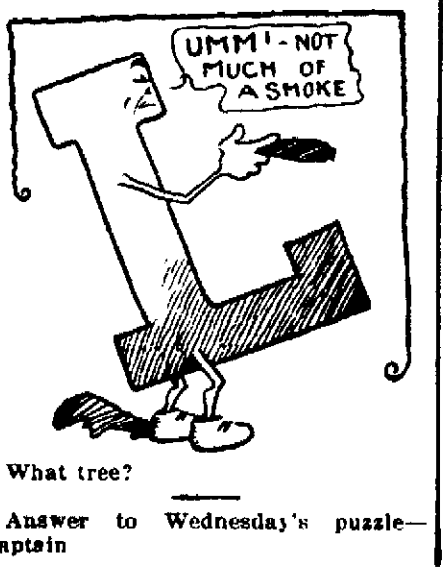

BERGER FOR WORKING MAN

Milwaukee, Wis., Nov. 10.—Victor Berger, Socialist congressman-elect today issued a statement in which he disclaims any desire of intention to revolutionize the country. The Real Facts About White Slavery

"The Girl that Disappears"
By Gen. Theo. A. Bingham

"Five years is the average life of 'The Girl who Disappears' into the underworld of New York. There are 30,000 persons engaged in the business of vice in this one city, and they die so rapidly that it is necessary to import 2,000 girls a year from Europe, besides the girls of the United States caught in the net."

General Theodore A. Bingham, former Commissioner of Police for Greater New York, is authority for these statements in a tremendously important article in the November Hampton's Magazine. General Bingham draws the curtain from the Tenderloin and shows his reason—the life there as it is revealed to the policeman.

A complete, frank discussion of the entire social problem, offered in the only spirit General Bingham thinks sufficient to justify such a discussion—the effort to find a remedy.

LICKING DEMOCRATIC CLUB MEETING

There will be a meeting of the Licking Democratic Club Friday evening, November 11. We want everybody to come, no one barred. Come and let us have a jolly good time. We have plenty of reasons for rejoicing. Come and participate.

It is now Senator Dick who will need a job, and he will need it badly.

After Governor Harmon finishes up his house-cleaning at Columbus he will be in first class condition for tackling the same kind of a job at Washington.

The Licking county election returns must have been very discouraging to expert campaigners. Hanover Cummings, when he saw Eddy Larason's majority piling up to the 2,500 majority figure.

GOVERNOR HARMON FOR THE PRESIDENCY

(Enquirer.)

The Democracy of Ohio at their last state convention endorsed Judson Harmon as their choice for the Presidency in 1912.

They have made that endorsement good by the handsome majority they gave him for Governor on Tuesday last, and by his re-election they have placed him in a position where his availability as a Presidential candidate must have great weight with the delegates to the national convention.

In no state of the Union was there greater concentration of Republican effort than in the state of Ohio, and the result there is of a national political importance second to that of no other state in the Union.

Party faction was so apparent, so bitter so personal in New York, that from the very hour of Colonel Roosevelt's domination of the Saratoga Convention there was not a possibility of a Republican victory in that state.

In Ohio the Republican party had not only a clean and able candidate for Governor, but a united party in convention and the assistance of stand-patters and insurgents from outside states.

Upon Ohio was bestowed the talent of the Republican party of the nation, and men of every shade of Republican opinion were brought from far and near to unite, to cement and to solidify the Republican vote at the ballot boxes.

Governor Harmon met, therefore, in the Ohio campaign the full force of the Republican national organization and carried the state, recognized heretofore as strongly Republican, for himself and the Democratic party.

Ohio has placed her champion for the Presidency in the lists, and trusts the national convention will place his name at the head of the national ticket.

With Harmon and Wilson of New Jersey, as candidates for President and Vice President there is every reason now to believe that 1912 can be repeated in 1912.

That presidential endorsement didn't seem to handicap Harmon a little bit, did it? But Harmon will finish up his work at Columbus, as he promised he would do, and let 1912 take care of itself in its own way. That man Harmon has old-fashioned ideas about doing one thing at a time and doing it well, that is, doing it the best he can, which is the same thing.

Latest accounts from Teddy, the Terrible, are to the effect that he is "still silent" since Tuesday. Perhaps he is having some actual realization of the awful fact that it is himself who has been "beaten to a frazzle."

There must have been something wrong with that campaign fund that Senator Dick got from New York. It seems to have been timely, but no sufficient in amount to spread all over.

A local Republican sought consolation in the claim that this is the first time the Democrats have had opportunity to celebrate a general Democratic victory since the time of Cleveland's election. He is welcome to what consolation he finds in that fact. However, the conditions are different. It was an uprising of Republicans who declared themselves no longer willing to stand for government for and by the interests as against the general good of the common people.

A few words tell the whole story. "Governor Harmon has made good."

Dick was defeated the right way. There was no other sure way.

No wonder President Taft had no comment to make. His time will come in 1912.

Maine hasn't anything on Ohio now to gloat over. Ohio did as nobly in November as Maine did in September.

That C. H. and D. canard had too much recoil in it. Having failed twice to make it an issue, perhaps the a. o. p. managers will have sense enough to let it alone next time. As a roorback it worked beautifully—for Harmon.

Taft nor Harding nor Dick can point the finger of scorn at either of the two and say, "thou art the man!" All three went down together on the same platform.

OHIO SENATE LINE-UP.

The legislative returns, not yet verified absolutely, indicate a senate of 19 Democrats and 14 R. Republicans, and a house of representatives made up of 49 Republicans and 68 Democrats. This gives the Democrats a majority of 24 on joint ballot and insures full control on all questions, including confirmation of Governor Harmon's nominations and the election of a United States Senator to succeed Charles Dick, Republican.

Ballinger may be glad that he was not sent to Ohio.

If Roosevelt could only have been persuaded to speak at Columbus and one or two other places it might have been unanimous.

New York City's Zoo in Bronx Park is tame alongside the rip-snorting, raving, ranting, roaring menagerie on Saginore Hill since November 8, 1910.

Now let Roosevelt go back to darkest Africa—and stay there. Better to be Bwana Tumbo in the jungle than a discredited dictator in civilization.

If President Taft had sent the rest of his cabinet to Ohio he might have still less to say but more to think about on his Panama trip.

Knox spoke in Ohio. He can still hear the echo if he'll listen.

The tariff was not revised downward, but the election returns were revised upward.

Nobody cares now whether Mr. Harding insists on Chairman Laylin publishing his campaign expenses or not.

By this time Mr. Harding and the g. o. p. campaign managers realize that it doesn't pay to drag a strike into politics and try to give a government the worst of it for doing his official duty freely, fairly and justly to all concerned.

One of the many troubles with Mr. Harding's campaign was that he launched too many roorbacks with flare-backs.

GRANVILLE

Granville, Nov. 10.—One of the most peculiar instances of a rat attacking a small child while it lay sleeping in the case of the little son of Mr. Edw. Wiley, and well known and respected citizen of Granville township, who resides just north of the village on Burd street. Tuesday night Mr. Wiley was awakened by the growling of his little son, and on investigation found that the child had been attacked by a rat while it lay sleeping. He found that the rat had bitten the child in the face and had gnawed one of its fingers until it was bleeding quite freely. A physician was called who attended to the injuries of the little one.

SOMETHING NEW FOR COUGHS.

Make It Yourself.

Until the discovery of the wonderful new drug product, Mentho-Laxene, everybody had to rely on ordinary cough mixtures, usually composed of morphine, opium and the like; but now the most effective and popular cough syrup is made at home with essence mentho-laxene. Here is the formula: Essence mentho-laxene 2, 1-2 Ozs.
Granulated sugar syrup 13 1-2 Ozs.
Buy it of your druggist, or have him order it from the wholesaler, two and one-half ounces of essence mentho-laxene; empty it into a pint bottle and fill up the bottle with granulated sugar syrup. To make the syrup use a pint of sugar and a half pint of boiling water, stir it, let cool and mix it with the mentho-laxene.

This makes a fine curative laxative cough syrup, superior to anything you can buy at four times the price. Take in teaspoonful doses 5 to 10 times daily. It loosens the tightest cough in an hour and is fine for old people and for children, for they like to take it, and by its tonic-cleansing healing and laxative properties, it prevents pneumonia, lung fever and other complications of colds.

There is no case too bad for it to overcome.

CLEVER ENGLISH TOILET IDEA

ISN'T this a clever idea from London? Who but the most ingenious of caterers to women's fads and fancies would have thought of concealing in the hollow handle of an umbrella or a parasol the materials for the final dab of powder which so many women think necessary to give the finishing touch to their toilet? Step aside for once, Paris! London gets the credit for this bit of ingenuity, which is one of the latest novelties for fashionable women on the other side of the water.

The powder is placed at the bottom of a cute little gold or silver box which forms the handle of the sunshade or the rainshade. Then the useful puff is placed on top of it, the handle is snapped down, and there you are! When the bearer of the parasol desires to use the powder puff she presses a catch and up flies the cover of the box.

Oh, yes; there's another thing. On the inside of the box cover is a small mirror which when raised enables the fortunate possessor of this novelty to view the effects of the application of the puff.

USE FOR MANICURE SCISSORS

Little Implement Handy in Other Ways Than Originally Intended. The small curved scissors are an invaluable little implement in the hands of the all around capable woman. They belong to the workbasket as well as to the manicure tray.

We all know of their use as a stencil cutter, and they will prove equally necessary for the cutting out of embroidery, whether machine or hand made, and for the cutting away of material under laces to make them transparent.

There are curved lines in sewing that will be more safely cut out and small spaces into which no other scissors will so successfully get as the manicure blade.

Plants and Pianos.

A piano tuner is responsible for the theory that a growing plant in the room shows the correct state of the atmosphere with regard to the instrument. If the plant thrives there is sufficient moisture in the room for the sounding board, which is injured by dry, overheated air.

LITTLE HOUSEHOLD HINTS.

Iron rust may be removed from linen by boiling in cream of tartar water.

If you do not want your ironing board to fall down when the door behind which it reposes is suddenly opened, try keeping it in place with a noose fastened to a screw hook.

Twenty drops of carbolic acid evaporated from a hot shovel will go far to banish flies from the room.

A small box of unsalted lime kept in the pantry will absorb all impurities and keep the air dry and sweet. The lime must be changed every two or three weeks.

Shrink your machine strap with a few drops of oil if its looseness annoys. A cloth well oiled and rubbed thoroughly upon the whole length of the strap will cause it to tighten, or seemingly to tighten, by holding more closely to the metal as the wheel turns.

The following action was taken by the Library Club:

"That the club ask, in behalf of the Public Library and the Women's clubs of the city, that the reference books now in the Ladies' Circulating Library be placed in the Public Library, so that the aforesaid clubs and general public may have freer access to them as the Ladies' Circulating Library is open but a few hours each week.

WILL JONES
Had to Wear It All the Time

“THERE was once a boy named Johnny Smith, who was the most forgetful youngster in all the land,” said daddy. “If he were sent to the store for eggs he would bring back potatoes. If his mamma told him to get her a headache powder at the drugist’s he would buy a sponge or maybe a porous plaster. Why, often when he started for school he would think it was Saturday and play somewhere all day. Oh, there was never such a stupid fellow before, and his parents were angry with him all the time.”

“One day Johnny’s papa called him aside and said: ‘Look here, young man, you’ve got to wake up and be smart like other boys or else you’ll have to go to work in a store, where you’ll have to use your brains or get into trouble. Now, I’m going to give you one more trial. Go down to my office and bring back a large package that I left on my desk there.’”

“Johnny started off, but before he had gone a block he met some companions and played for an hour or so. Finally he returned home, but instead of the package his papa wanted the stupid boy had brought home a man to fix the kitchen range, which did not need fixing at all. ‘That settles it,’ said his father. ‘You’ll have to go to work and learn to remember what is told you.’ And the next day he got him a position as errand boy.”

“But this did not brighten up the wits of the stupid boy a bit. When sent out to deliver packages he would forget and imagine himself going to school, and how the children laughed to see a boy come to school with his arms full of bundles. Once when sent out to buy the manager a cigar he came back with a stick of candy instead. It wasn’t long before he lost his position, and then his father said, ‘The only place for such a stupid boy is in the country, and we will see if your Uncle Tom cannot wake you up.’”

“So Johnny was sent to his uncle’s farm, but there he seemed to be more stupid than ever. When told to bring home the cow he would return with the horse. When told to feed the pigs he would give the food to the chickens, and at last he was sent home. ‘I’ll fix you this time,’ said his father. And he painted a big sign and hung it around Johnny’s neck. The sign read, ‘This is the Most Stupid Boy in the Whole World.’ And the youngster had to wear it all the time. When he went out to play everybody read the sign and laughed, and the children made all sorts of fun of him. You may be sure that Johnny did not like this at all, and he began to get smart and remember things. It wasn’t a week before he was like other boys in this respect, and pretty soon his papa took off the sign, and there was no more trouble after that.”

The Proof That Newark Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan’s Kidney Pills cure permanently.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan’s Kidney Pills. They now confirm their testimonial. They say time has completed the test.

C. W. Manville, 32 Locust street, Newark, O., says: “My former public statements regarding Doan’s Kidney Pills still holds good. Three years ago I suffered from pains and lameness through the small of my back and was caused annoyance by a kidney weakness. Doan’s Kidney Pills proved their superior curative powers by restoring me to good health and correcting every symptom of kidney complaint, after other remedies had failed. My cure has been a permanent one.”

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

IRON TRADE REVIEW

Cleveland, Nov. 10.—The Iron Trade Review says: While there is nothing in the situation that would indicate that even a moderate buying movement has started, manufacturers are more optimistic and consumers are showing more interest, and in many instances are quietly placing orders involving fairly heavy tonnage. The increased buying for 1911 delivery is perhaps more noticeable in the market on tin plate. In this branch most of the larger buyers have already placed orders covering their 1911 spring requirements and as a result some of the tin mills which were closed recently will be started again as soon as repairs are made. Some fairly large contracts for sheets have been made, but price concessions are still being reported. Some sheet mills are four weeks behind in shipments. Actual bookings for wire and nails are heavier, but quotations of \$1.50 on plain wire and \$1.70 on wire nails are being shaded.

Some large inquiries for semi-finished steel for delivery next year have appeared and some contracts have been placed, but makers are not accepting business for delivery very far ahead at today's prices. While the bulk of new business in steel bars is for immediate shipment, several orders for first quarter shipment are noted. Additional inquiries for standard rails have appeared but it is not believed that the larger trunk lines will cover for their full requirements until it is definitely decided what action is to be taken regarding the proposed advance in freight rates. Advance information is that some fairly large contracts for rolling stock may be expected in the near future. Additional inquiries for cars are reported, but details are lacking, and it is generally understood that many of the rail and car awards have been held up pending the outcome of the election.

GLOOM CAST OVER COLLEGE BY ACCIDENT

J. Frank Armstrong, Killed by Interurban Car, Highly Respected By Faculty and Students of Denison University.

Granville, Nov. 10.—Perhaps nothing that has ever occurred in connection with Denison University has caused a deeper thrill of sadness and regret among the entire student body and the people of Granville than did the news received here shortly after 4 o'clock Wednesday afternoon that J. Frank Armstrong, a student of Denison, had been killed in Newark by being run over by an electric car. The news spread rapidly and in a few minutes every one in the village was cognizant of the facts in the case. Young Armstrong had been at his rooms on the hill during the early hours of the afternoon and came down town about 3 o'clock. He boarded the 3:30 o'clock car and went down to Newark. From persons who witnessed the accident it is learned that as the car swung around the Emerson corner, at the corner of Third and West Main streets, with a refrigerator car attached, Armstrong attempted to alight from the passenger car and in doing so slipped and was struck by the trailer, thrown down and badly mangled. In an incredibly short time hundreds of people were at the scene of the accident. The young man was pulled off the track and laid on the ground, and a physician phoned for, but before he arrived the vital spark had fled. Coroner Marriott, who was in the vicinity at the time of the accident, was quickly on hand and viewed the body, after which it was removed to the undertaking rooms of Criss Bros. & Jones on South Third street, where it was prepared for interment.

Deep regret was expressed by hundreds of citizens who gathered around the form of the unfortunate young man, and one young woman in the crowd fainted, and had to be carried from the scene.

No blame is attached to either the conductor or motorman of the car, and none regret the accident more than they. As soon as the news of the unfortunate accident was received here, the members of the Y. M. C. A. and others of the student body took the matter of arranging for the funeral in their hands, and Thursday the body was brought to Granville and impressive services were held in the Baptist church Thursday afternoon at 3 o'clock, which were largely attended by the entire student body, the members of the faculty of Denison University and citizens of the village generally. The services were unusually beautiful and touching, testifying to the love and esteem which all who knew the deceased had for him.

J. Frank Armstrong was a young man of great promise. He was a son of Mr. and Mrs. John Armstrong prominent and highly esteemed people of Waterloo, Iowa. He came to Denison a little over a year ago, and was in the second year of his course in the college, being a member of the sophomore class. He was a ministerial student, preparing himself for active Christian work. He was exceedingly active in Y. M. C. A. and literary work. He was possessed of a brilliant mind, was an able speaker and a good all round fellow. No man who ever became acquainted with him failed to love him. He was interested in all college activities and was one of the most popular men in the student body. He was this year in the cabinet of the Y. M. C. A. representing the help department, and at the very time of his death was on an errand in the interest of the students seeking self-support. He was a man of many personality, and appealed to everyone with whom he came in contact. His death has cast a pall over the whole student body. He was a man who will not soon be forgotten. Previous to coming to Denison he attended the West Waterloo high school at Waterloo, Iowa, where he was a member of the football and basketball teams and where he took an active part in college sports. He was also employed for some time as bookkeeper for the Waterloo Saddle Company. Besides his parents he is survived by two younger brothers, Robert and William, and two older sisters, Cora and Elsie, all of whom have the sincere sympathy of all students and others in their great sorrow.

The body will be taken to Waterloo Thursday evening, being accompanied by Mr. George Strease, a fellow student and room mate of the deceased. Funeral services will be held in Waterloo Saturday afternoon.

Fries's Advice Led to Their Recovery

Thin, weak, or frail people—those who "take cold easily" and sufferers of Bronchitis and Asthma, should be prepared with Eckman's Alternative in the house. Remarkable cures of even Tuberculous (Consumptive) persons are often accomplished. Here are two instances:

Gentlemen: "On June 2, 1907, I was operated upon for Tubercular Peritonitis at St. Mary's Hospital, Rochester, N. Y. After the operation my physicians gave me up. I was then urged by a priest to take Eckman's Alternative, which I did. My weight at the time was 72 lbs. I began to improve and steadily gained in health and strength. I now weigh 125 lbs. and am absolutely cured."

ENDS STOMACH TROUBLE AND INDIGESTION

Take your sour, out-of-order stomach — or maybe you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach: it doesn't matter — take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pepp's Diapensin and let you eat one of the 22-grain Triangles and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in the mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapensin.

Y. M. C. A. NOTES

Y. M. C. A. trustees met at 5:30 this evening for the regular November business session. The alterations in the building, now under way, the seventh annual conference of Ohio Boys meeting in Newark, November 25, 26 and 27, and the opening of the educational and religious work for the fall and winter make a busy and important session necessary.

In spite of many things of absorbing interest, attendance at the "Around the World Trip" at the Y. M. C. A. Sunday afternoon has been good and next Sunday's tour of "Darkest Africa" with its views of the game trails, diamond mines, strange tribes of black men and its mission stations too will be one of the best. Rev. T. H. Warner will guide the party. Every man interested and every man who wants a pleasant hour Sunday afternoon is invited.

Mrs. G. W. Hobart and son Raymond of Viola, Kansas, are the guests of Edward Hobart and family.

POLICE COURT

Earl Johnson, the young colored boy, who was twice arrested within a short time, may be a victim of circumstances. A short time ago he was arrested, charged with knocking down a young white girl who was playing on North Fifth street. No one appeared against young Johnson when his case came to trial and he was discharged.

Yesterday he cut a young boy with a knife and again he was arrested. He was badly scared when he talked to the mayor this morning and declared that the cutting was accidental. He said he was scuffling with young Miller when the latter fell against the open knife he held in his hand. Johnson will get his hearing tomorrow.

THIN FOLKS MADE FAT.

More than half the readers of the Advocate would give almost anything to be plump and rosy instead of thin and scrawny.

Physicians and chemists for years have studied the problem of making a flesh-forming food, but it is only within the last few months that a bright man discovered the prescription that taken with the daily meals gave a positive increase in flesh.

This preparation is now put up in convenient form for use under the name of Samose.

Taken with each meal it enables the food you eat to assimilate with the system and that in connection with its own flesh-forming and tissue-building foods gives healthy flesh. The emaciated form fills out into the beautiful curves of plumpness, the scrawny limbs become round and firm, the cheeks fill out and take on the rosy bloom of perfect health and normal strength.

W. A. Erman & Son have secured the agency in Newark for Samose and as the percentage of satisfactory results from the use of this prescription is so nearly 100 per cent, they feel there is no risk in offering to refund the money if Samose does not do all that is claimed for it.
